Course of Instruction, &c.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class, are examined in the Grammar of the Latin, Greek, and English Languages, Cicero's Orations against Catiline, Virgil, Greek Reader, (Jacob's, Colton's, or Owen's,) Geography, (Ancient and Modern,) and Arithmetic.

For advanced standing, the candidate, whether from another College or not, in addition to the preparatory studies, is examined in the studies to which the class which he wishes to enter, has attended.

No one can be admitted to the Freshman Class, till he has completed his fourteenth year, or to an advanced standing without a proportional increase of age.

Testimonials of good moral character are in all cases required, and those who come from other Colleges must produce certificates of dismission in good standing. Every student is required, within four weeks from his entrance, to matriculate by signing a pledge to obey the laws of College, and to abstain from the use of intoxicating drinks, and from every species of immorality.

As candidates for admission are frequently found to possess some knowledge of Algebra and Geometry, while they are deficient in Latin and Greek, it is recommended to principals of academies, and other teachers, not to allow preparatory students to anticipate the regular studies of the College course; but to devote the whole time of preparation to the study of the branches required for entrance.

COLLEGIATE COURSE.

FRESHMAN CLASS.

I. { Livy,
Xenophon's Anabasis,
Algebra,
Analysis of the English Language.

II.
- Livy,
- Horace; Odes,
- Xenophon, continued,
- Algebra, continued,
- Elocution, (Russell's.)

III.
- Horace,
- Herodotus,
- Algebra, completed,
- Latin and Greek Prose Composition throughout the year.

SOPHOMORE CLASS.

I.
- Horace; Satires and Epistles,
- Homer; Iliad and Odysssey in alternate years,
- Geometry, (Loomis',)
- Rhetoric.

II.
- Cicero de Amicitia, de Senectute, and de Officiis,
- Homer, continued,
- Xenophon's Memorabilia,
- Trigonometry; Plane and Spherical, (Loomis',)
- Mensuration, Surveying, Navigation, (Loomis',)
- History.

III.
- Terence,
- Xenophon's Memorabilia, continued,
- Analyt. Geometry and Differential Calculus, (Loomis',)
- History,
- Latin and Greek Prose Composition throughout the year.

JUNIOR CLASS.

I.
- Tacitus,
- Demosthenes,
- Integral Calculus,
- Mechanics, (Jackson's,)
- French.

II.
- Quintilian,
- Euripides; Medea,
- Optics, (Jackson's,)
- Natural Philosophy,
- Hopkins' Evidences of Christianity.

III.
- Cicero de Oratore,
- Sophocles; Electra, (Woolsey's Ed.)
- Astronomy, (Gummere's,)
- Physiology, Natural Theology,
- Campbell's Philosophy of Rhetoric,
- Composition in Latin and Greek continued throughout the year.

SENIOR CLASS.

I.
- Cicero's Letters to Atticus,
- German,
- Chemistry,
- Kent's Commentaries on the Constitution,
- Whately's Logic,
- Intellectual Philosophy, (Stewart and Cousin, with a consultation of other authors, and Lectures,)
- Political Economy.

II.
- Plato's Gorgias, (Woolsey's Ed.)
- German, continued,
- Comparative Physiology, and Zoology,
- Whately's Rhetoric,
- Intellectual Philosophy, continued,
- National Law, (Kent,)
- Mineralogy.

III.
- Butler's Analogy,
- Wayland's Moral Science,
- Geology.

Crosby's Greek Grammar, Liddell and Scott's Greek Lexicon, or Pickering's, Crusius' Homeric Lexicon, Andrews and Stoddard's Latin Grammar, and Leverett's Latin Lexicon, or Andrews', are used in the study of the Latin and Greek Languages.

The following works are recommended for reference:—Ramshorn's Latin Synonymes; Butler's Atlas Classica; Anthon's Classical Dictionary; Eschenburg's Manual of Classical Literature; Smith's Dictionary of Roman and Greek Antiquities; Webster's Dictionary; Mitchell's Maps of Modern Geography; English Synonymes; Pinneo's English Grammar.

In addition to the recitations here specified, Composition, Extemporaneous Speaking, and Declamation, are made prominent objects of the student's attention. Thorough training in these respects is considered of the highest importance in making a College Education practically useful. The aim of the whole course is to enable the student to obtain a well-balanced education, in which the power of expression shall be attained equally with discipline of mind and facility of acquisition.

Translations from English into Latin and Greek, and from these languages into English, are, throughout most of the course, very frequently required of the students, as an indispensable means of studying the classics with either pleasure or advantage.

All the students in the College and the Preparatory Department, will recite in the English Bible on Monday morning. The plan adopted is one, which, during the full course of study, will give the student a familiar acquaintance with the Sacred Scriptures.

While all the branches of study are taught from text-books, the Professors in the several departments will follow up the text-book instruction with full courses of Lectures.

In addition to the lectures delivered by the Professors in their various departments, occasional lectures will be delivered before all the students, having a direct bearing upon their characters and habits as students and gentlemen, and designed to promote order, decorum, and an elevated standard of scholarship, as well as to furnish useful information on topics not strictly embraced in any of the departments.

SCIENTIFIC DEPARTMENT.

This department has been established to meet the wants of those young men who do not propose to study the Classics, but who yet wish for a more thorough English and Scientific education than can be obtained in our Academies. This course occupies three years, and embraces a wide range of Mathematical and English branches, together with the French and German languages. Most of the studies are recited with the College classes; and the students in this department have the same exercises in composition and declamation, attend the same lectures, and enjoy the same priviliges of the Literary Societies, as the other students.

A certificate signed by the President of the College, will be given to those who complete the studies of the course.

Candidates for this department must have completed their fourteenth year, must bring certificates of good moral character, and must sustain an examination in Grammar, Geography and Arithmetic.

The charges for Tuition, &c., are the same as in the College Classes.

COURSE OF STUDY.

FIRST YEAR.

I.
- Algebra,
- Geometry,
- Analysis of the English Language,
- Rhetoric.

II.
- Algebra, continued, Trigonometry,
- Mensuration, Navigation, Surveying,
- History,
- Elocution.

III.
- Algebra, completed,
- Analytical Geometry and Differential Calculus,
- History.

SECOND YEAR.

I.
- Integral Calculus,
- Mechanics,
- Civil Engineering,
- French.

II.
- Optics,
- Natural Philosophy,
- Hopkins' Evidences of Christianity.

III.
- Astronomy,
- Physiology,
- Natural Theology,
- Campbell's Philosophy of Rhetoric.

THIRD YEAR.

I.
- German,
- Kent's Commentaries,
- Whately's Logic,
- Intellectual Philosophy,
- Political Economy.

II.
- Comparative Physiology,
- Zoology,
- German,
- Intellectual Philosophy,
- Whately's Rhetoric,
- National Law,
- Mineralogy.

III.
- Butler's Analogy,
- Wayland's Moral Science,
- Geology.

PREPARATORY DEPARTMENT.

The principal object of this department is to prepare students for College, while instruction in the branches usually taught in academies, will be given to those not wishing to pursue a College course.

Many young men apply every year for admission to our Colleges, whose preparation is entirely inadequate. The notions entertained both as to the kind and amount of study, are often very imperfect. A preparatory department in connection with the College, is thus rendered necessary.

On some accounts it is desirable that students should pursue their preparatory studies at home; but if their own town does not furnish the requisite facilities, it is important that they should go where they can secure a thorough preparation.

The preparatory department in this College has been changed somewhat, and no effort will be spared to make it thorough and efficient.

The price of tuition is $21,00 a year. The sessions are the same as in College.

CALENDAR.

1855.

Sept. 12. Fall term began.
Dec. 18. Examination begins, Tuesday morning.
" 20. Fall term ends.

1856. WINTER VACATION, TWO WEEKS.

Jan. 4. Winter term begins, Friday.
April 7. Examination begins, Monday.
" 8. Junior Exhibition, Tuesday evening.
" " Winter term ends.

SPRING VACATION, FOUR WEEKS.

May 7. Summer term begins, Wednesday.
July 24. Examination begins, Thursday morning.
" 29. " for admission to College.
" " Exhibition of Literary Societies, Tuesday evening.
" 30. Address before Alumni, Wednesday morning.
" " Annual meeting of Corporation, Wednesday A. M.
" " Address before the Society of Inquiry, Wednesday P. M.
" " Oration before the Literary Societies, Wednesday evening.
" 31. COMMENCEMENT, Thursday.

FALL VACATION, SEVEN WEEKS.

Sept. 17. Fall term begins, Wednesday.

TERMS AND VACATIONS.

Commencement is on the last Thursday of July.

The College year is divided into three terms and three vacations. The first term begins seven weeks after Commencement, and continues till the 22nd of December. The second begins January 5th, and ends fifteen weeks before Commencement, making the first two terms together twenty-eight weeks in length. The third term is

twelve weeks long, ending the last Thursday of July. The first vacation is seven weeks, the second two, and the third three.

The first exercise in each term for the College and Scientific Classes, is prayers, at which every student is expected to be present. In the Fall Term, recitations will commence at 11 A. M., Friday; Thursday being devoted to choosing and arranging rooms. In the Spring term, the first recitation is at 11 A. M., Thursday.

No student is allowed to be absent without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury to his progress in study than parents and guardians commonly suppose, and they are earnestly requested not to give their consent to any absence except for very urgent reasons.

Should the return of the student be delayed beyond the beginning of a term from any cause, he is required to report himself to the presiding officer immediately upon his arrival in town. In all the departments, it is of great importance that students should enter *at the beginning of the term*, and none will be received for a shorter period than one term.

EXAMINATIONS.

At the close of every term there will be a thorough examination in each department of study, which will be so conducted as to MAKE IT AN ACTUAL TEST OF THE AMOUNT AND ACCURACY OF THE KNOWLEDGE ACQUIRED BY THE STUDENT.

EXPENSES.

Tuition, - - - - - - -	$25,00	$25,00
Room Rent, - - - - -	5,00	8,00
Library, and incidentals, - - -	5,00	7,00
Board, from $1,50 to $2,50 per week,	60,00	100,00
Washing, Fuel, and Lights, - -	10,00	15,00

Bills for Tuition, Room-rent, and use of Library, are payable in advance, at the commencement of each term.

Where the student retains his standing, no deduction will be made for absence.

Whenever a student wishes, for any cause, to leave the Institu-

tion, he should procure from the presiding officer a certificate of dismission.

To guard against unnecessary expense, parents and guardians often deposit funds with some member of the Faculty, or some person approved by them, who will give particular attention to the pecuniary affairs of the student, and render an account of expenpenditures. *This course is earnestly recommended to all who intend placing their sons, or wards at this Institution, and also, that they neither authorize the obtaining of credit, nor pay debts unauthorized.*

SOCIETIES.

The two Literary Societies connected with the College are in a very flourishing condition, and great interest and enthusiasm are manifested by the members of each.

Their Halls occupy the whole of the third story of the new College building, and are fitted up with fine taste; one being arched and finished in stucco, and the other painted in fresco, with oil-paintings in the panels. The Libraries are in keeping with the Halls, being well selected, and rapidly increasing. The number of volumes in the Alpha Kappa Library is 2600; that in the Psi-Gamma Library 2225.

The Society of Inquiry has for its object the gaining of knowledge respecting the religious condition of the world. Besides a good Library of 800 volumes, the Society has a Cabinet of foreign curiosities illustrative of the manners and customs of different nations, which is believed to be one of the most extensive in the United States.

LIBRARIES, CABINET, ETC.

The College and Society Libraries contain over 14,000 volumes.

The College possesses a valuable Cabinet of Minerals, which contains many beautiful specimens, and is sufficiently large and full for all purposes of instruction. There is connected with it a collection of fossils and other geological specimens.

In addition to the College Cabinet, there is the "Hildreth Cabinet," comprising the whole of the valuable collections of minerals and fossils of S. P. Hildreth, M. D., of Marietta, which, with his scientific library, and fine entomological and conchological speci-

mens, and collections of American antiquities, he has generously given to the Institution.

The departments of Natural Philosophy and Chemistry are furnished with suitable apparatus, most of which is of unusual excellenee.

To furnish facilities for exercise, a large Gymnasium has been erected and furnished with the neeessary apparatus. A bathing house has also been provided.

CHARITABLE FUND.

The tuition of indigent young men preparing for the ministry, is paid from a fund contributed for that purpose. Further assistance can be received from the Education Society.

Industrious and enterprising young men ean defray a eonsiderable portion of their neeessary expenses, by means of the different employments whieh the plaee furnishes.

PUBLIC WORSHIP.

Prayers are attended morning and evening in the College chapel, with the reading of the Seriptures, when all the Students are required to be present. Every student is required regularly to attend some one place of publie worship twiee on the Sabbath, being at liberty to eonneet himself with any one of the regular religious eongregations of the place, at his own option or aecording to the wishes of his parent or guardian.

A lecture on some topie of natural or rev aled religion, is delivered to all the students weekly.

PRIZE SCHOLARSHIPS.

By the generosity of a friend of the College, four Prize Scholarships have been endowed, eaeh yielding seventy dollars a year. This ineome will be given to the student in eaeh class, who shall sustain the best examination in the studies of the year.
